PRINCIPAL’S REPORT  Brad Madden

Education Week
The week of Monday May 16 to Friday May 20 is designated as Education Week and schools throughout the area will be doing different things to highlight the importance of education and some of the programs and activities that students are undertaking. At Crusoe College, we will be inviting all members of the community to come into the school and see the different classes in action. Many parents and extended family members hear a little bit of what happens at school but perhaps don’t get the chance to see things for themselves. This is the opportunity that we are offering you for all five days of Education Week with tours of the school starting at the General Office at 10:30am and 2:00pm. We are proud of the programs we have in the school and we wish to share this with members of the broader community.

Art Science Festival Showcase
We were treated to a fantastic display of creativity last Thursday when the Art Science Festival Showcase was opened by Councillor Barry Lyons. There were completed works that will remain visible within the College on an ongoing basis, such as the mural and some of the brilliant wall art in the communities, while others were on show on the night and have been taken home by their creators. It was fantastic to see that students from Bridgewater PS and Lockwood South PS were able to join in a range of workshops in keeping with their interests and skills. Congratulations should go to the students whose creativity and patience with their work was outstanding, as well as to Mr Musk who co-ordinated the event and the staff who organised the many workshops on offer for the two days of the festival. Cr. Lyons spoke at the opening about the importance of education and the opportunities that it brings which was a very strong message to students and families about the important work teachers and students do every day. You might be able to see some of the permanent new displays if you can make it to an Education Week tour.

Community Education Week Event
There is a film screening at the Ulumbarra Theatre on Monday 16th May which is a combined initiative between the Department of Education and Training, the City of Greater Bendigo, Bastow Institute, The Discovery Centre and the Bendigo Tech School Stakeholder Committee to highlight educational transformation. The film focuses on High Tech High in San Diego and how they are creating learning opportunities that enable students to achieve success in their lives and careers. Following the screening there will be a panel discussion featuring industry leaders, principals and education system leaders exploring how education in Victoria is creating opportunities for students in the Bendigo region to succeed. For those interested in the broader context of education within society, details of how to get involved are below.

Date: Monday 16th May
Time: 5.30pm -7.30pm
Where: Ulumbarra Theatre, Gaol Rd, Bendigo VIC 3550
Cost: Free
Who: All community members, educators, friends and family welcome.
Booking: Contact Capital Theatre Bookings: 54346100 or book online: www.gotix.com.au
For further information please contact blanks.marcellinus.b@edumail.vic.gov.au

Information Night
On Wednesday night of this week, the College held the first information session for prospective Year 7 students. There was a great turn out of families, some new to the College and some who are more familiar. The aim of the night is to give information to new students and families so they can confidently make the transition to secondary schooling at the start of 2017. We had some current students involved on the night and they were wonderful ambassadors for the College and drew lots of praise from those who were part of the tours they led. There are many more opportunities for prospective students to visit the College and find out the information they need so if you know of people who have not yet engaged with the College, please encourage them to contact us directly.
PRINCIPAL’S REPORT cont
Brad Madden

NAPLAN testing
Literacy and Numeracy testing for Year 7 and 9 students will take place on Tuesday, Wednesday and Thursday of next week. Information about the tests has been distributed by advisors so parents with students in those year levels will be aware of the nature and timing of the tests. There will be some changes to the timetable for these year levels and some changes to rooms for other year levels to accommodate the testing conditions. If you require further information or would like to discuss the involvement of your child, please contact their English or Maths teacher or their community leader.

Volleyball win at Northern Zone
Our Year 9/10 Volleyball team took the next step on their winning ways in Mildura on Monday of this week winning the Northern Zone title. This means they have qualified for the State finals to be held in Melbourne on Thursday 19th May. This is a terrific effort by the boys who have been led by enthusiastic coach, Gary Mullens. The next competition is guaranteed to be a great challenge for the team who continue to train hard and play in local competitions to hone their skills and teamwork. We will be able to provide full details of the final in the next newsletter and you can keep your eye on our Facebook page on the day for updates as they happen.

Fee payments
One of the important factors in organising and running programs within the College is the contribution to costs that parents are asked to make. While you will always have tuition without charge from fully qualified teachers, the College is not always funded for the costs of materials and other expenses that arise in each educational program. At the start of the year, we had an excellent rate of contribution from families and we are very appreciative of the effort made to make such payments. Many families have also been able to make payment arrangements that suit their budgets which is an option open to others. We are now asking that parents ensure that all payments are completed as soon as possible and that payment plans are arranged if necessary. For students involved in elective subjects this is particularly important as there may be an impact on the electives that can be chosen in Semester 2 if Semester 1 payments are outstanding.

Loddon Mallee Region Champions
This week the Crusoe Crusaders became Loddon Mallee Region Volleyball Champions, winning the finals in Mildura. The competition was held at St Joseph’s College in Mildura. This made for an early start for the team of Matt Poulter, Lachlan Hill, Matt McSwain, Angus Keith, Jet Cox, Dillon Gauci, Lachlan Tranter and Kaden Gledhill as well as their coach, Mr Mullens.

After nearly five hours on the bus they were eager to take the court. Crusoe’s first game was against MacKillop College from Swan Hill. This was a team the boys had not seen before and they did not want to take any chances. The boys started strongly with Gauci’s middle hitting setting the tone, this led the way for the likes of Poulter and Hill to consistently attack, and strong serving from Matt McSwain allowed the team to seal the game 2-0. The second game saw the Crusaders face the local team Merbein College. To the boys’ surprise the Merbein team had come to play and although they were the strongest offensive team, their defence was solid. Our boys were punished for starting the game overconfident and flat footed as Merbein took the first set with relative ease. In the huddle the boys collected their thoughts and decided to go out and have some fun. The first person to respond was Lachlan Tranter who as middle blocker was able to read the play and shut out several early Merbein attacks. This was a signal that confidence was returning and the boys started to find their voice, they were jumping high and swinging hard. When confronted with power, Merbein’s previously smart attacking play dried up. The boys took the second set and with it valuable momentum. The third set started very close as both teams traded points. Keith, Tranter and Hill were all able to win some clutch one on ones, this combined with some solid Cox serves helped repel Merbein as they made one last push. The Crusaders had been well and truly challenged, but like champions they were able to respond taking the match 2-1.

Following the victory over Merbein the boys were determined to finish the tournament strongly against St Augustine’s of Kyabram. Taking no chances the boys lead by their captain Matt Poulter were able to knock them over 2-0 and claim victory for the day.

The Crusaders will now travel to Melbourne in two weeks time to compete in the State Finals. We wish them luck.

**LOST PROPERTY**—Can we ask that families make sure to name and label their children’s school items. This will help the college to return any items that have been left in buildings or at sports days, etc. Thank you for your assistance with this matter.
NAPLAN - Tuesday, Wednesday & Thursday
The National Assessment Program – Literacy and Numeracy (NAPLAN) is an annual assessment for students in Years 3, 5, 7 and 9. It has been an annual event for schools since 2008. On Tuesday 10th, Wednesday 11th and Thursday 12th May, students will sit the 2016 NAPLAN tests. NAPLAN assesses skills in literacy and numeracy that are developed over time, through the school curriculum. NAPLAN is not a pass or fail type test, but rather shows how students are progressing in numeracy and literacy skills against national standards for all Australian children. It also provides valuable information that allows schools and governments to better target effort and support to help all students achieve their potential and acquire the basic skills to help them build successful and happy lives. All students are expected to participate in the tests. Students with disability may qualify for reasonable adjustments that reflect the support normally provided to them in the classroom. Some students with very specific circumstances may be exempted from participating in the tests. For information about participation in NAPLAN, you can go to: http://www.nap.edu.au/naplan/parent-carer-support.html

NAPLAN tests fundamental skills rather than specific content, and as such is not a test for which students can study or drill. The best way you can help your child prepare for NAPLAN is to let them know that NAPLAN is just one part of their school program, and to urge them to simply do the best they can on the day. The use of services by coaching providers is not recommended. An individual student NAPLAN report will be issued by the school later this year. Parents can use this information to monitor how their child is progressing and to identify any areas of concern. Parents may also wish to use their child’s results to discuss progress with teachers. More information is available at www.nap.edu.au. Parents are asked for their assistance in ensuring that students are especially punctual to school on the test days.

IMPORTANT NOTICE
CITY OF GREATER BENDIGO FOR TERM 2
PARKING AROUND CRUSOE COLLEGE

Parking and Animal Services from the City of Greater Bendigo have contacted our school and requested that the following information be conveyed to our school community.

The illegal parking of vehicles adjacent to our school poses a safety concern to children, pedestrians and other road users. Parents are reminded that it is essential to comply with parking restrictions when dropping off and collecting children from school.

Motorists must not stop in no stopping areas, even briefly, with or without the motor running. They must not stop next to a continuous yellow edge line, on resident’s nature strips, too close to school crossings, park over driveways or double park. A number of schools have short term time restricted areas, such as 2 minute pick up drop off. These parking areas are in place to allow for ease of access close to schools and these restrictions must be adhered to. Drivers should also be aware that they cannot perform a U-turn over an unbroken or continuous dividing line.

With regard to children’s crossings, the law requires that a driver approaching a children’s crossing must drive at a speed at which the driver can, if necessary stop safely before the crossing. Please slow down and take extra care when driving in school zones.

City of Greater Bendigo Parking Officers and Bendigo Police do conduct random patrols throughout the school year at various locations to ensure that motorists are adhering to the Road Rules.

2016 ATHLETIC SPORTS
The team spirit and sense of pride in our community was clearly apparent at the recent Athletic Sports. White Community – finished the day just one point away from gaining 2nd place in the competition. The students wore their green house colours with great pride and the way they encouraged one another’s efforts and shared each other’s joy, was indicative of the positive culture we are creating in our community. Congratulations on a fantastic effort! Three of the 2016 age group champions came from White Community.

Congratulations to:
Year 7: Carlie Glanville
Year 10: Shelby Knoll & Matthew Bradley

YEAR SEVEN STUDENT LEADERS
Following a rigorous selection process that highlighted students’ persuasive language skills, the following Year Seven students were elected to represent their year level as Community Leaders. Congratulations to: Shawn Bradley, Dylan Wiltshire and Tiarni Baxter.

INTEGRITY
This term, our values focus will be on Integrity. At assembly, we discussed the definition of Integrity and determined that Integrity means **doing the right thing all the time – whether or not anyone is watching**. Integrity is a very important quality to develop in our students. As well as creating strength of character, integrity helps to keep our children safe by supporting them to make sound choices when faced with difficult situations. By teaching the quality of integrity, we hope that we are supporting our students to develop their moral compass.

---

YATES Community News
Debbie Spencer-Jones

Hi all, the Yates Community has started the term off very well. Our Arts Science festival was absolutely brilliant with students enjoying the challenges and creative tasks on offer. Students assisted me in the creation of our new mosaic tiled wall on our new SWITCh room in the north end of the building. It looks terrific and the students did a marvellous job working hard for 2 days to get it completed.

With NAPLAN happening next week for our Year 7 and 9 students we are holding off on our Community challenges until the following week. This will allow us to complete the round robin challenge by the end of the Term. We will be holding a presentation of the trophy to the winning team later in the term.
Bridget: a new Australian
By James Moloney
This novel is part of the ‘New Australian’ series of books about the experiences of girls in the early settlement days of Australia. In this case Bridget is the main character who has travelled to Australia from Ireland as part of a supported assistance initiative by the British government to try and rectify the gender imbalance in the newly forged colony, as well as providing domestic help for the settlers and wives for the pardoned convicts. Bridget and her family were made homeless as a result of the potato famine. She, along with her sister, lie about their ages and get aboard a ship for Australia. However, life isn’t exactly what they expected after their arrival.

Bridget’s strength of character, plucky nature and love of horses help her to fall on her feet after a rocky start to life in New South Wales. This is a very easy book to read that will suit those who enjoy history and learning about how people overcome obstacles.

All of the books written in this series are by acclaimed authors so they are quality reads perfectly pitched to Year 7 and 8 students. Mrs Marchingo’s Rating 4/5

Simon, a representative from ClickView, visited the College this Monday to talk to staff about new initiatives related to this program. All students are registered to use the program that will give them access to 2600 videos 24/7 to support their learning. All they have to do is follow either of these links:

http://clickview.crusoecollege.vic.edu.au or http://online.clickview.com.au
The username and password are the same as that which they log on to the computers and printers at school.

Open Night
The GLC looked resplendent at Open Night. Along with our normal beautiful displays, the English Domain was showcased in our space with work from many of our students and a beautiful Prezi (digital display) created by teacher, Ellen McGrath, to inform prospective parents and students about what to expect in 2017.

Arts/Science Festival
The GLC has a new ‘Reading Nook’, created from boxes and tape and built by students and myself. It is amazing what a little bit of cardboard, tape and colourful paper can produce. Many thanks to those students who assisted in building the popular little ‘Nook’.
The Arts/Science festival is an opportunity for students to express their learning in different ways. It is a chance for students to meet different staff and together they can explore passions in different workshops. The Arts/Science festival is a cross age experience with a variety of workshops where students engage in a ‘hands on’ approach to their leaning. The following photos taken by the Media team are a snapshot of the different workshops provided.

Wall Art was once again a popular activity, with many students signing up and working hard to produce some fantastic self-portraits. This project extended on the second day giving the students ownership of their building by designing logos and other art work for their community.

Spray Painting
Confetti Bowls
Pretzel Making
Crochet
Tie Dye
ART / SCIENCE FESTIVAL 2016
Photo collage by our Media Students
The Mural has been an ongoing project of the Arts/Science Festival. The third and final panel of the mural, containing three images, has been completed during this year’s Art/Science Festival and the end result speaks for itself! The students and Ms. Poljak have done an amazing job in the production of the mural and should be proud of their efforts.

2014

The inspiration for the Mural was based on Humanities ‘Amazing Inventions’ with one of the greatest and inspiring art movements, the surrealist Movement. Where would humanity be if the wheel had not been invented?
The wheel led humanity to be able to water fields and move water from ‘A’ to ‘B’. We have built ourselves shelter, invented several modes of transportation, water vehicles, flight, trikes and automobiles. Without the amazing imagination of artists, inventors and scientists, we would not have the world we live in today.

2015

The 2015 mural had its original concept born from the theme that was chosen for the event the ‘Past, Present and Future’. Our imagination leads us to discover, create and invent. The 2015 Mural encapsulates the cross pollination between the Arts and Sciences. The Mural was painted by a very talented and enthusiastic group of students from across our year levels. It took three days to create the mural and these students returned each day to see the project through. Our English domain has also used the mural as a stimulus for a creative writing exercise. The mural has created a lot of interest and debate about meaning within the images and whether or not viewers of the image like or dislike it. But overall the high cement wall now has a place in our Past Present and Future.

‘The past, like the future, is indefinite and exists only as a spectrum of possibilities’.

Stephen Hawking

2016

The final panel of the mural has a nautical theme. Humanity has invented, designed, created and crafted an industrialised world to help support our survival as a species. Unfortunately this industrialisation is also destroying our marine world. Water is a constant theme within the three mural pieces. As humans we are dependent upon water as a resource for survival. There is a large sailing ship in in the third panel as without the ability to build vessels and sail seas we as a race would not exist upon this great country.
The mural was unveiled at our Arts/Science Festival opening night on Thursday 28th April by Councillor Barry Lyons.
R U OK? Poster Competition

Be creative and win awesome prizes

Ages 16-24? Got a creative streak? Reckon open and honest conversations are important? Be in the running to see your work pinned up in schools and youth organisations nation-wide.

Come up with a design that explores the question –

"How can meaningful conversations change our world?"

The top 10 designers will win a limited edition R U OK? t-shirt designed by The Upside, and the winning 3 designers will also nab an R U OK? event kit for their school or uni to the value of $200.

The winning designs will have:

- Creative flair
- Effective, vibrant, clear designs
- A4 portrait format
- No R U OK? logos and no border please!

Send your design with your name, age, and school or organisation to hello@ruok.org.au by Friday June 3rd.

Cheers,
The R U OK? Team

Year 10 students

Carmen’s Road Safety Message - Wednesday, 18th May

On Wednesday, 18th May, our students in Year 10 will be given a very real and powerful message of how road trauma affects families and the impact that their future choices could have on those around them.

John Maher, whose daughter Carmen died in a single vehicle accident 18 years ago, presents Carmen's Message, at our College each year and it is one of the most moving and powerful messages that our Year 10 students hear.

In the hour-long presentation, Mr Maher speaks to students about his own experiences, gives students the tools that will allow them to make better choices when in a car and asks students to think very clearly about the choices that they make.

We are very fortunate to be able to give our Year 10 students this experience and we encourage parents to talk to their students about what they have learnt and how it made them feel.

For any further information please contact – Debbie Spencer-Jones at the College on 5447 7722.
