Year 7 Curriculum Program

In Year 7 at Crusoe College, the focus is upon assisting students to make the transition smoothly and upon consolidating and extending the basic skills acquired at primary school. Students learn to cope effectively with a greater number of fellow students and teachers, many more subjects, movement between classrooms and a much larger and more complex physical environment. All this occurs while the students are also undergoing a great deal of personal and physical development.

The fundamental aims of **the Year 7 curriculum are to:**

- Give students continuity and support regarding both wellbeing and their educational development.
- Provide the students with a broad education so they have the opportunity to experience many areas and develop their talents.
- Give students the opportunity to have success in a number of areas of the curriculum.

Year 7 Timetable

Each student is unique and has a range of talents which can be and should be developed. To facilitate this, the Year 7 Curriculum is a broad one which enables students to have a "taste" of a number of activities and experiences. Each student is provided with an individualised timetable, which covers the core subject areas, as well as a range of taster modules which students will rotate through, throughout the course of the year.

The Year 7 Curriculum includes:

Core Subjects

- English
- Maths
- Science
- Humanities
- PE
- Choice of Language:
Chinese, French, German or
Indonesian

Taster Modules

- Food Technology
- Textiles
- Art
- Multimedia
- Drama
- Music
- Technology
- Health
